

GLOBALIZATION PROBLEMS IN CULTURE

Annotation

Existing social transformations and social-political conflicts of late have strong effect on cultural development in our state. At the same time due to abrupt intensification of contemporary world, caused first of all by transformation of information technologies, the lag of civilization advance from scientific-technical progress is being traced. In this connection the problem of harmonization of modern and traditional culture forms requires further investigation.

Key words: *globalization of human activity, socio-political conflicts, the transformation of information technology, traditional and modern culture.*
